

# TERMS OF REFERENCE FOR CONDUCTING MID-TERM EVALUATION FOR MALARIA PROJECT IN GEITA

## *“Harnessing on the Private Health Sectors Potential in the Fight against Malaria”*

### 1.0. Introduction and Background Information

The **Association of Private Health Facilities in Tanzania (APHFTA)** is a Non-Governmental Organization (NGO) that exists to serve as a public forum for the private health sector and provide a comprehensive array of advocacy, administrative, knowledge-sharing and networking products and services to the private health sector. APHFTA is an umbrella organization for private (self-sustaining) health sector in Tanzania. It has engaged the private health sector in the delivery of public health services under the Ministry of Health and Social Welfare (MoHSW), partnering to improve the quality of care in health sector and to achieve the Sustainable Development Goals (SDGs), the National five-year Strategic Plan 2015/16 – 2020/21, the National Strategy for Poverty Reduction and Economic Growth (MKUKUTA)

APHFTA has over 800 member facilities all over Tanzania, with membership including hospitals, health centres, dispensaries, clinics, laboratories, pharmacies/ADDOS, and maternity homes among others. The association has an established and functioning National Secretariat with more than 30 full time employed staff with several departments, including administration, quality improvement, credit financing, and specific disease projects.

In addition to the National Headquarters Offices in Dar es Salaam, APHFTA has established four Zonal offices. These are: **Lake Zone Office**, with offices in Mwanza City and Geita, **Northern Zone Office**, with offices in Moshi, **Southern Highland Zone Office** with offices in Mbeya, and **Eastern Zone**, with offices in Dar es Salaam.

APHFTA has established itself as a respected organization and is actively participating at the MoHSW in health sector strategic planning and policy formulation. APHFTA is dedicated to improving the quality of care and services in the private health sector. This has been made possible through implementation of a number of projects in private facilities and some government facilities through Public-Private Partnership. The projects include Maternal and Child health; Helping Babies Breath, Family planning, Non Communicable Diseases, HIV and AIDS, quality improvement, improving access to affordable finance and continuous professional development among others.

The Association's vision is *"A strong private health sector delivering sustainable high quality healthcare services"*.

The Association's Mission is *"to promote quality healthcare services through the private healthcare sector in Tanzania and beyond"*.

APHFTA in collaboration with Afya Micro-Finance Company (AMIF) through the financial support of Comic Relief (UK) is implementing a Malaria project with the title "Harnessing on the Private Health Sectors Potential in the Fight Against Malaria" in Geita Region (2017-2019). The overall goal of the project is to contribute to the reduction of Malaria prevalence in the Region. Specifically, the project aims at improving the quality of primary health care services including Malaria in the region; increasing the knowledge of communities on malaria prevention strategies through the school health program; improving data gathering/collection, analysis, reporting and use for better decision making from the facility, district, regional to national levels and increase access to affordable loans to private healthcare providers for essential medicines.

APHFTA has been implementing the project since January 2017 to date whereby several activities have been implemented. For example carrying out a baseline survey, regional stakeholders meetings, training of health care providers on the National Malaria Care and Treatment guidelines, Training of community Owned resource persons (CORPS), training of laboratory personnel on Rapid Malaria Diagnosis testing, Malaria Service and Data Quality Improvement (MSDQI) supportive supervision

## **2.0. The Objective of the Mid-Term Evaluation**

The overall objective of this Mid-Term Evaluation is to provide the project stakeholders with an independent review of the project status in terms of relevance, effectiveness, Efficiency and performance of the project as compared to the project targets. The evaluation results are envisaged to identify and describe the lessons learnt, through measurements of the changes in the set indicators and the experiences gained, technically and managerially, and recommend the approaches and methodologies for improved performance

### 3.0. Focus of the Evaluation
